WELCOME TO CORNER 32 DENTAL!

We are thrilled to have you join our family. At Corner 32 Dental, we are on a mission to change people's perception of going to the dentist. To achieve this, we are dedicated to providing you with the highest level of care in a friendly and welcoming environment. Your comfort and satisfaction are our top priorities, and we want your first visit to be a positive and informative experience.

Our team of skilled professionals is here to ensure that your dental health needs are met with the utmost expertise and care. We understand that visiting a new dental office can sometimes feel overwhelming, so we aim to make the process as smooth and pleasant as possible.

Here's a detailed look at what you can expect during your first visit with us:

Your First Visit: What to Expect

1. Warm Welcome and Chat with the Dentist

- From the moment you walk through our doors, you'll be greeted by our warm staff who will make you feel right at home. We'll start with a friendly conversation to understand your dental history, concerns, and goals. This initial chat helps us tailor our approach to meet your specific needs and expectations.

2. Comprehensive Examination

- The state of our oral health has a huge impact on our general health. The dentist will conduct a thorough examination of your teeth, gums, and mouth to assess your overall dental health. This includes checking for any signs of decay, gum disease, or other issues. We may also take photos and 3D scans if needed to get a complete view of your oral health.

3. Professional Cleaning: Scaling and Polishing

- Our dentist or hygienist will perform a professional cleaning to remove plaque and tartar buildup, leaving your teeth feeling smooth and clean. This process not only helps prevent cavities and gum disease but also gives you a fresher, brighter smile.

4. Fluoride Treatment for Added Protection

- We offer a fluoride treatment to strengthen your teeth and help prevent cavities. This simple and quick treatment provides an extra layer of protection for your enamel, ensuring your teeth stay healthy and strong. If you prefer not to have a fluoride, this can be swapped for a remineralising treatment.

5. Diagnostic X-Rays: Small X-Rays and Full Mouth (OPG) X-Ray

- To get a complete picture of your dental health, we may take small x-rays and a full mouth (OPG) x-ray. These images help us detect any issues that are not visible during the visual examination, such as cavities between teeth or bone loss.

6. Detailed Discussion with the Dentist

- After your examination and x-rays, our dentist will take the time to discuss any findings with you. We'll go over any areas of concern and recommend treatments if necessary. This is a great opportunity to ask any questions you might have about your dental health or the treatments we offer. We highly value compassion which means you will always be treated with kindness and understanding and, even more importantly, you will never feel judged or criticised for your dental concerns.

SPECIAL OFFERS

New Patient Offer:

To welcome you to Corner 32 Dental, new patients can attend for a NO GAP check-up, clean, professional fluoride treatment, 2 small x-rays and one full mouth x-ray (if required) for \$295 or NO GAP for those not in a Health Fund*.

Our Main Services

At Corner 32 Dental, we are committed to meeting your ongoing dental needs and aesthetic goals. In addition to providing exceptional care during your initial visit, we offer a comprehensive range of services designed to enhance your oral health and give you the smile you've always wanted. Here's a closer look at the main services we provide:

Cosmetic Dentistry

At Corner 32 Dental, we believe that everyone deserves to have a smile they can be proud of, and our skilled team of dentists is dedicated to helping our patients achieve their goals.

Whether you are looking for teeth whitening, veneers, or dental implants, we will work closely with you to ensure that you are getting the best possible results. We understand that your smile is important to you, and we will do everything we can to help you achieve your perfect smile.

CEREC

Welcome to our cutting-edge dental experience with CEREC technology! Say goodbye to multiple visits and messy impressions, and hello to a streamlined, efficient process that puts your comfort and convenience first.

CEREC is our state-of-the-art system that revolutionises the way we create dental restorations, such as crowns, right here in our practice.

With CEREC, we harness the power of advanced computer-aided design and manufacturing (CAD/CAM) technology to craft precise, customised restorations tailored to your unique smile.

The process begins with a digital scan of your teeth, eliminating the need for uncomfortable impressions. This digital scan is then used to create a virtual 3D model of your restoration, allowing us to customise it to match the natural shape, size, and colour of your teeth. With CEREC, you can enjoy the convenience of same-day restorations, saving you time and hassle while delivering exceptional results.

KöR Whitening

Discoloured teeth can be caused by many different lifestyle choices or issues with the teeth. Eating or drinking certain foods that can easily stain teeth, smoking or vaping, certain medications, aging and genetics are all common causes. Discoloured teeth can significantly affect confidence and self-esteem.

KöR Whitening is by far the most consistent and reliable whitening system that we have ever used here at Corner 32 Dental.

We are proud and excited to be only one of a handful of clinics offering KÖR Whitening in Sydney. It is so powerful that it is even effective for tetracycline-stained teeth!

Everyone deserves a smile they can be proud of and confident in. Would you smile more if your teeth were whiter? If the answer is “yes”, then you owe it to yourself to ask us more about the incredible KÖR Whitening system.

Clear Aligners

Straight teeth can be more attractive and healthier, and obtaining a beautiful smile has never been easier. Clear aligners, often known as Invisalign, are virtually invisible braces which utilise the very latest technology to move teeth discreetly and comfortably into the correct positions over time.

Aligners can correct a number of common orthodontic problems including overcrowded, misaligned or poorly spaced teeth. They are suitable for most age groups: children and teenagers through to adults. Patient compliance is important as the aligners must be worn regularly to work effectively. Following completion of aligner treatment, patients will be required to wear retainers, to hold the teeth in their new position.

Benefits of clear aligners include:

- **Invisibility:** Clear aligners are virtually invisible, making them an excellent choice for adults and teens who want to straighten their teeth without drawing attention.
- **Comfort:** Made from smooth plastic, clear aligners are more comfortable and less irritating than metal braces.
- **Convenience:** Removable aligners allow you to eat, drink, brush, and floss with ease.

Say goodbye to traditional braces and hello to a confident, beautiful smile with our clear aligner treatments.

Facial Rejuvenation

Enhance your natural beauty and maintain a youthful appearance with our safe and effective cosmetic injectables. At Corner 32 Dental, we offer a range of injectable treatments to smooth out wrinkles, fine lines, and other signs of aging. Our services include:

- **Anti-Wrinkle Injections:** Reduces the appearance of dynamic wrinkles and fine lines by relaxing facial muscles.
- **Dermal Fillers:** Adds volume to areas such as the cheeks, lips, and under-eye hollows, restoring a youthful fullness to your face.

Our cosmetic injectables are administered by trained professionals, ensuring precise and natural-looking results. Whether you're looking to enhance your features or turn back the clock, our injectables can help you achieve a refreshed, youthful appearance.

At Corner 32 Dental, we are dedicated to providing comprehensive dental care and aesthetic treatments to help you achieve optimal oral health and a stunning smile. For more information on any treatments mentioned, ask us during your appointment or simply visit our website. We look forward to serving you and helping you achieve your dental goals.

COMFORT MENU

At Corner 32 Dental, your comfort and satisfaction are our top priorities. To ensure that your visit is as pleasant and stress-free as possible, we are delighted to offer our exclusive Comfort Menu to all our patients. Our Comfort Menu includes a range of amenities designed to enhance your experience and make you feel at ease during your appointment.

Simply let our friendly staff know which amenities you would like to enjoy during your visit. We are here to make your dental experience as comfortable and enjoyable as possible.
